CC Docket Nos. 96-45 and 97-21

DATE: March 19, 2003

Dear Sirs:

It was stated in our Appeals Decision Letter that our school was denied funding in full because the email address [slcerate@yahoo.com](mailto:slcerate@yahoo.com) in block 1, Item 6e of form 470 Application #384990000407536 includes service provider information. USAC stated that [skerate@yahoo.com](mailto:skerate@yahoo.com) was associated with Envisionary Technology. The accusation is a false accusation. EnVisionary Technology is not [slcerate@yahoo.com](mailto:slcerate@yahoo.com). The email address was a common email address that I have access to and it was created because we did not have an email address at that time and it would be easier for us to receive information if school is out of session or any other type of communication delay. We did sign all 470 and 471 forms ourselves and would like to appeal the decision made by USAC. Please contact me for any further information needed for this appeal.

Sincerely,

  
Erica Jones
